

# Risk assessment WNAT (Clenchwarton, West Lynn and Walpole Cross keys) F625a

**Department:** WNAT **Section/Team:** Operations

**Location: WNAT** 

Activity/Area: Education Assessor Name: M Fitzpatrick Manager Name: A Johnson **Assessment Number:** 04

Assessment Date: 10/09/20

**Review Date:** 10/09/21 or in the event of significant change.

Having assessed the risk, schools must work through the below system of controls, adopting measures in a way that addresses the risk identified in their assessment, works for their school, and allows them to deliver a broad and balanced curriculum for their pupils, including full educational and care support for those pupils who have SEND.

If schools follow the guidance set out here they will effectively reduce risks in their school and create an inherently safer environment.

#### **System of controls**

This is the set of actions schools must take. They are grouped into 'prevention' and 'response to any infection' and are outlined in more detail in the sections below.

## Prevention

- 1) Minimise contact with individuals who are unwell by ensuring that those who have coronavirus (COVID-19) symptoms, or who have someone in their household who does, do not attend school.
- 2) Where recommended, use of face coverings in schools.
- 3) Clean hands thoroughly more often than usual.
- 4) Ensure good respiratory hygiene by promoting the 'catch it, bin it, kill it' approach.
- 5) Introduce enhanced cleaning, including cleaning frequently touched surfaces often, using standard products such as detergents and bleach.
- 6) Minimise contact between individuals and maintain social distancing wherever possible.
- 7) Where necessary, wear appropriate personal protective equipment (PPE).

Numbers 1 to 5 must be in place in all schools, all the time.

Number 6 must be properly considered and schools must put in place measures that suit their particular circumstances.

Number 7 applies in specific circumstances.

# Response to any infection:

- 8) Engage with the NHS Test and Trace process.
- 9) Manage confirmed cases of coronavirus (COVID-19) amongst the school community.
- 10) Contain any outbreak by following local health protection team advice.

Numbers 8 to 10 must be followed in every case where they are relevant.

Approach to risk estimation and management

# The system of controls: protective measures

|                                      |   | Schools should work through the following steps to address their risks, considering for each risk whether there are r   | neasure  | es in e         | ach ste | p they can adopt | before moving | onto the next step:   |
|--------------------------------------|---|---|----------|-----------------|---------|------------------|---------------|---|
|                                      |   | Elimination: stop an activity that is not considered essential if there are risks attached.   |          |                 |         |                  |               |   |
|                                      |   | 2. Substitution: replace the activity with another that reduces the risk. Care is required to avoid introducing nev   | w hazar  | ds due          | to the  | substitution.    |               |   |
|                                      |   | Engineering controls: design measures that help control or mitigate risk.   |          |                 |         |                  |               |   |
|                                      |   | 4. Administrative controls: identify and implement the procedures to improve safety (for example, markings on   | the floo | or, sign        | age).   |                  |               |   |
|                                      |   | 5. Having gone through this process, PPE should be used in circumstances where the guidance says it is requ   |          |                 | σ,      |                  |               |   |
| What are the                         | Who might be  | Existing Risk controls  |          | sessn<br>of Ris |         | Action by        | Action        | Remarks/Actions   |

|   |   | 2. First aid —  a. A risk assessment to identify pupils with specific first aid requirements and or behaviour issues should be conducted. Where appropriate first aid cannot be provided to pupils, they should not attend.  b. First Aid arrangements have been checked and meet risk assessment training level and ratio requirements for the number of staff and pupils in attendance (including trained staff whose certification expired on or after 16 March and is now extended for 3 months). If this is not possible the following steps have been taken:  i. Higher risk activities are avoided where it is possible e.g. use of D & T machinery ii. The previous 3 months accident history has been reviewed and all previous investigations have been completed with control measures in place to reduce future risk.  iii. There are arrangements in place to respond to a first aid event, e.g. two people respond to provide instructions from a trained responder by calling 999.  iv. A member of staff has been nominated to check and maintain first aid kit contents  v. First aid boxes are located in prominent places  vi. The location of the automatic defibrillator is known to all staff  vii. Staff who do not have training have been provided with Basic First Aid Skills information and familiarised themselves with the relevant areas they may be required to use.  viii. Changes to first aid arrangements are communicated to all staff  ix. To support social distancing, staff will instruct an injured person about what to do for minor injuries if it is age appropriate  c. Where close contact is required the first aider uses PPE as outlined in COVID 19 - Personal Protective Equipment Guidance  d. Normal first aid cover identified in the First Aid Risk Assessment is provided. | RA for LT (WCK) in place. PEP for GH, HH  First aid boxes checked by designated staff member  Collect pupil details Sept 20 for updates and two contacts per pupil  |
|---|---|---|---|
|   |   | <ul> <li>e. Staff who require refresher training use Basic First Aid Skills information and familiarised themselves with the relevant areas they may be required to use.</li> <li>f. | Executive<br>Management<br>Team<br>responsibilities | Students, Employees,<br>Visitors and<br>Contractors | 1. Ensuring Compliance - The school will follow their normal arrangements to encourage safe behaviours and actions if Trust/School standards are not followed.  a. The Senior management team have reviewed the operation of the setting in the light of welcoming all children and young people back during the pandemic and have made alterations so that:  b. The number of contacts that pupils and staff have during the school day are minimised  c. The distance between people in the setting is maximised as much as possible,  d. Implementation of robust universal hygiene measures is supported through the provision of hygiene stations, reducing contact points and touch surfaces and supporting effective hand drying  e. Enhanced cleaning arrangements can be implemented  f. The whole setting community are engaged with and support the national effort to reduce the spread of the virus  g. Specific consideration has been given to the management of the first day back and consideration given to staggering returns to eliminate groups gathering together  2. Trustee engagement - Trustees are involved and supporting the school to ensure that required actions are completed and have reviewed this assessment as part of their role.  3. Safeguarding - The introduction of new arrangements have been reviewed by the Executive  Management Team ensure that they do not impact on safeguarding requirements in the Trust/School  | Working in bubbles that have limited staff across site. Staggered playtimes, and no visitors encouraged.  Some minimal cross bubble working to make sure pupils learn and are safe.  Staff know to wash hands when crossing bubbles.  Staff have break out spaces for rest/refreshments |

Pupils and parents have been advised that it is preferable that members of the household should walk to the school together where possible  b. Pupils and parents have been advised that they should not walk together in large groups   |   |     |   |               |            | management out front outside school expected                                 |
|                                    |   | 5.            | <ul> <li>Public and School Transport -</li> <li>a. Pupils, parents and staff have been advised not to use school transport if they have symptoms</li> <li>b. Pupils, parents and staff have been advised to wash their hands before and after using transport services</li> </ul>  |   |     |   |               |            |  |
|                                    |   |               | <ul> <li>c. Pupils, parents and staff have been advised of the government advice to wear face coverings when travelling on public transport, unless it is not safe to do so</li> <li>d. Pupils on dedicated school services do not mix with the general public on those journeys and tend to be consistent. This means that the advice for passengers on public transport to adopt a social distance of two metres from people outside their household or support bubble, or a 'one metre plus' approach where this is not possible, will not apply from the autumn term on dedicated transport.</li> <li>e. Markings are provided where queuing is required for transport services on school premises</li> <li>f. Windows are opened during journeys where it is safe to do so</li> </ul> |   |     |   |               |            |  |
|                                    |   |               | <ul> <li>g. Touch points on school minibuses/vehicles and vehicle keys are wiped down with disinfectant wipes after use</li> <li>h. Staff do not transport a symptomatic pupil (unless specifically in relation to a residential setting)</li> </ul>   |   |     |   |               |            |  |
| Arriving at and leaving the School | Students, Employees,<br>Visitors and<br>Contractors | 1.            | <ul> <li>General principles</li> <li>a. Particular attention has been given to how the first day of term will be organised with both new and existing pupils supported to follow infection control requirements. Consideration has been given to staggering the return to school by welcoming back different year groups/classes on different days to help everyone get used to the new way of operating.</li> <li>b. Consideration has been given to 'walking buses' (supervised walking groups to and from school. c. Where possible entrances are supervised to support hand sanitising on arrival.</li> </ul>  | 2 | 4   | 8 | Headteacher   | 14/09/2020 |  |
|                                    |   |               | <ul> <li>d. Where possible arrival and leaving times are staggered by adjusting the start and finish in order to keep groups apart and avoid rush hour</li> <li>e. Where times cannot be altered, for example, due to public transport, plans are in place to prevents groups from mixing once at the setting and busy transit routes.</li> <li>f. There are hand sanitiser stations for pupil and visitor use</li> <li>g. Disinfection arrangements are in place for potential points of contact in receptions, entrances and</li> </ul>  |   |     |   |               |            | Hands washed on arrival  Caretaker/SLT  will be present outside before       |
|                                    |   |               | transit routes during periods of high use  h. The impact of weather changes e.g. where external queuing will become a significant part of safety arrangements is considered.  i. The management of deliveries to eliminate close contact e.g. having a pre-arranged drop off point, the delivery driver signing for you  |   |     |   |               |            | and after school Signs are displayed to inform staff                         |
|                                    |   | 2.            | <ul> <li>Parents and pupils – arriving and leaving the premises –</li> <li>a. All site movements will be supervised by staff members who will ensure that social distancing measures are being followed</li> <li>b. Parent/carer pick up and pick up protocols have been developed to minimise adult to adult contact and avoiding gatherings.</li> <li>c. Parents should be advised that only one parent is to conduct dropoff and pickup of their child.</li> <li>d. Reception teachers will check with the parent and/or pupil about the pupil's health and ask them</li> </ul>   |   |     |   |               |            |  |
|                                    |   |               | to wash their hands, on arrival in the building.   |   |     |   |               |            |  |

|   | <ul> <li>a. Parents and carers will be given drop off times in order to avoid groups arriving together and using entrances at the same time.</li> <li>b. Where possible, additional supervised entrances will be used to avoid people gathering at the same time</li> <li>c. Parents should be advised that only one parent is to conduct dropoff and pickup of their child.</li> <li>3. Bags and coats - <ul> <li>a. Staggered access times allow for cloakrooms to be used without pupils gathering.</li> <li>b. Alternative areas that are not being used have been allocated for cloak room use in order to prevent pupils gathering. Times of use are supervised and managed.</li> </ul> </li> </ul>   | aff should avoid close<br>act with distressed child<br>g drop off, talk, sooth but<br>ot let parent into bubble   |
|---|---|---|
| Educational activities  Students, Employees, Visitors and Contractors | 1. Classrooms and other learning environments - a. Alternative larger spaces such as gyms and halls are considered to accommodate groups and support distancing to be maintained b. Distancing is encouraged by reconfiguring furniture and chairs are forward facing c. Unnecessary furniture and objects are removed where possible d. The position of the teachers space/desk is considered as part of the configuration to support distancing from the class. e. Where bags are not allowed to be kept at desks/workspaces e.g. science lessons or DT lessons they are safely stored in a way that does not encourage congregating and touching each other's belongings e.g. use of lockers, bag hooks f. The teaching approach is modified to keep a distance from children in the class as much as possible, particularly close face to face support g. Where close contact is needed this is conducted side by side rather than face to face h. Pupils are not called to the front of the class i. Staff going to a pupils desk to check on their work is avoided j. Shared resources are avoided as much as possible, particularly those used frequently such as pens and pencils k. Pupils do not share or swap resources and materials including ceasing the marking of each other's books. l. Classroom based resources, such as books and games, that are used and shared within the bubble are cleaned regularly m. The resources brought in from home by children is kept to a minimum e.g. lunch boxes, hats, coats, books, stationery and mobile phones. and these are not shared with the group. n. There are picking-up and dropping-off collection points for resources rather than passing them hand-to-hand o. How pupils enter and exit the classroom is managed to maintain distancing. p. Where a room is used by more than one extended group the class teacher will clean down high use touch points between use  2. Playgrounds - Signage identifies the maximum number of users for equipment, distancing is encouraged for waiting and while using equipment | Desks face forward ildren remain in seats chers direct from front /Tch to live mark from and the child. Staff are to face to face or bending which in front of the child.  mark LO and 1 SPAG courage self edit and orking at same pace ading books left for 48 hours  s of children will share the resouces but this will ext in their drawers (totionary, English text) repet sessions apart from EYFS  FS equip disinfected weekly  Ch cover during lesson so staff out at playtimes sprays to clean touch point |

|  | <ul> <li>d. Equipment that is positioned in close proximity to other equipment has been taken out of use or repositioned (considering general safety requirements)</li> <li>e. Hand sanitiser stations are positioned near to play equipment and users instructed to perform hand hygiene before and after use.</li> <li>f. Bins are installed to encourage use of tissues and appropriate disposal</li> <li>g. Time is allocated for play equipment for each group/bubble</li> <li>h. Equipment touch points are cleaned frequently and between each groups use.</li> </ul>  | Playtimes are staggered<br>See bubble sheet   |
|--|---|---|
| On a sight State of S | i. Multiple groups do not use outdoor play equipment at the same time.  |   |
| Specialist curriculum considerations  Students, Employees, Visitors and Contractors  Students, Employees, Visitors and Contractors   | 2. Music - When planning music provision for the next academic year, schools should consider additional specific sately measures. Although singing and playing wind and brass instruments do not currently appear to represent a significantly higher risk than routine speaking and breathing at the same volume, there is now some evidence that additional risk can build from aerosoft suranssision with volume and with the combined numbers of individuals within a confined space. This is particularly evident for singing and shouting, but with appropriate safety mitigation and consideration, singing, wind and brass teaching can still take place.  Measures to take follow in the next sections.  a. Playing outdoors - Playing instruments and singing in groups should take place outdoors wherever a playing indoors. Playing instruments and singing in groups should take place outdoors wherever in the properties of the place of the numbers of | Recorders in groups of no more than 15 in the hall, well ventilated. Children to use the same instrument. No singing in the classrooms. |

|   | i. Individual lessons in music, dance and drama can resume in schools. This may mean   |                               |
|---|--|-------------------------------|
|   | teachers interacting with pupils from multiple groups, so you will need to take particular care,   |                               |
|   | in line with the measures set out above (staffing arrangements) on peripatetic teachers.   |                               |
|   | ii. In individual lessons for music, dance and drama, social distancing should be maintained   |                               |
|   | wherever possible, meaning teachers should not provide physical correction.  |                               |
|   | iii. Specific safety measures for individual music lessons are set out in the following sections:  |                               |
|   | Social distancing - Measures should include specific social distancing between pupil   |                               |
|   | and teacher (current guidance is that if the activity is face-to-face and without  |                               |
|   | mitigations, 2 metres is appropriate), accounting for ventilation of the space being   |                               |
|   | used. Pupil and teacher should be positioned side by side if possible.   |                               |
|   | Avoid sharing instruments - Avoid sharing instruments and equipment wherever   |                               |
|   | possible and place name labels on equipment to help identify the designated user, for  |                               |
|   | example, percussionists' own sticks and mallets  |                               |
|   | If instruments and equipment have to be shared, they should be regularly   |                               |
|   | disinfected (including any packing cases, handles, props, chairs, microphones  |                               |
|   | and music stands) and always between users, following government guidance  |                               |
|   | on <u>cleaning and handling equipment</u> . Instruments should be cleaned by the   |                               |
|   | individuals playing them, where possible   |                               |
|   | 3. Scores, parts and scripts - Limit the handling of music scores, parts and scripts   |                               |
|   | to the person using them.  |                               |
|   | 3. Drama and performances –  | PE should be outdoors as hall |
|   | a. Identifying where items would be passed directly to each other and removing direct contact by using   | is out of action – will be    |
|   | drop-off points or transfer zones.   | reviewed but hall is small    |
|   | b. One-way systems and mapping movements are carried out in order to ensure social distancing  | Total Cartain to omain        |
|   | c. Prop handling is limited  | 1 lesson a week.              |
|   | d. Costume use is avoided.   |                               |
|   | e. Audiences are not invited.  |                               |
|   | 4. Physical activity –   |                               |
|   | a. Outdoor space is maximised. Where it is not possible, e.g. due to inclement weather, the largest  |                               |
|   | available, well ventilated spaces will be used.  |                               |
|   | b. Prioritisation of low impact activities is given over high impact   |                               |
|   | c. Contact sports will not take place  |                               |
|   | d. Distance between participants is maximised.   |                               |
|   | e. The use of non-personal kit is avoided as much as possible, where it is used e.g. bibs kit will be  |                               |
|   | carefully cleaned/laundered between uses.  |                               |
|   | f. External facilities are used in line with Educational Visits arrangements.  |                               |
|   | g. The following advice has been referred to as part of the risk assessment process:   |                               |
|   | i. guidance on the phased return of sport and recreation and guidance from Sport England for   |                               |
|   | grassroot sport  |                               |
|   | ii. advice from organisation such as the <u>Association for Physical Education</u> and the <u>Youth Sport</u>  |                               |
|   | Trust  h. The use of changing rooms and showering facilities are evoided where possible. Where used:   |                               |
|   | h. The use of changing rooms and showering facilities are avoided where possible. Where used:  i. their use has been limited e.g. allowing PE kits to be worn on arrival and for the whole day, or |                               |
|   | part of the day after the lesson.  |                               |
|   | ii. Social distancing is maintained in these facilities, including limited the numbers in the space,   |                               |
|   | the use of floor markings, planning movement around the space and cleaning arrangements.   |                               |
|   | iii. Facilities will be used as quickly as possible  |                               |
|   | 5. Swimming pools – The COVID-19 Educational Settings – Swimming Pools risk assessment has been  |                               |
|   | completed for school operated pools.   | No swimming                   |
|   | 6. Subjects involving practical activities –   | 140 Swiffining                |
|   | a. Practicals and experiments have been reviewed for appropriateness in order to keep pupils distanced   |                               |
|   | from each other.   |                               |
|   | b. Consideration has been given to how practical demonstrations will take place without the need for   |                               |
|   | pupils to congregate at the front of the class e.g. technology will be utilised to project the   |                               |
|   | demonstration onto a smart board or screen to aid visibility   |                               |
|   | c. Where it is not safe to maintain social distancing such as D & T, smaller teaching groups will be   |                               |
|   | employed. Where close contact activity is required this will be for the shortest duration that is safe and   |                               |
|   | practical, the teacher will position themselves next to rather than in front of the pupil, all parties should  |                               |
| I | processes, and todation that position are most to harm that in front of the paper, an particle should  |                               |

|   |   | undertake hand hygiene before (where practical and this doesn't delay safety) and after the interaction.  d. Particular thought has been paid to the use of fume cupboards, Bunsen burners, sinks and other shared equipment/spaces to prevent close contact.  e. CLEAPSS COVID-19 resources and advice are used as part of lesson planning and for room use, this includes:  i. Guide to doing practical work in Science  ii. Guide for science departments returning to school after an extended period of closure  iii. Guide for managing practical work in non-lab environments  iv. Guidance for schools where pupils spend all day in a lab  v. Guidance for schools where pupils spend all day in a D&T, food or art room  vi. Relevant primary schools guidance for example, Practical activities in a bubble  7. Supervised toothbrushing programmes -  a. COVID-19: guidance for supervised toothbrushing programmes in early years and school settings has been followed and procedure documented.  |  |

| Cleaning and disinfection       | Students, Employees, Visitors and Contractors       | 1. A review of the current cleaning arrangements has been carried out in order to identify the existing cleaning and disinfection arrangements to inform the additional cleaning required as outlined in Gov guidance (COVID-19: cleaning of non-healthcare settings) 2. Cleaning –  a. If a surface is visibly dirty it is always cleaned prior to disinfection. Even where you use a dual product as described in the compliance code.  b. Different cleaning equipment is provided for kitchens, toilets, classrooms and office areas.  c. The School will need to identify the specific cleaning methods for the items that require cleaning.  d. The School will continue with their enhanced cleaning and disinfection arrangements that have already been put in place.  e. Early Years Schools have increased the frequency of general cleaning and disinfection paying particular attention to hand contact surfaces to counteract the reduced ability to follow other infection control measures  f. Cleaning and disinfection arrangements take place several times a day in settings provided for babies and young children, paying particular attention to hand contact surfaces.  g. In secondary Schools, where the ability to maintain small groups is more difficult, and children are likely to move around the setting much more than in primary schools, hand contact surfaces are cleaned regularly throughout the day  h. Teaching staff are provided with cleaning materials to enable them to clean contact points in their classrooms between groups/classes.  i. Staff who under take cleaning follow the instructions for cleaning products and disinfectants to ensure it is effective to ensure that all of the surface has disinfectant applied and not to wipe items dry before the required contact time has been achieved.  j. Where the same space or equipment is used by different groups or cohorts of children cleaning takes place between each group's occupation or use  k. Disinfectant wipes are more generally available for staff to use where they wish to.  1. All touch point |   | 4 | 8 | Headteacher | 14/09/2020 | Replenish cleaner for staff and wipes  Identify touch points- eg-desks Light switches, toilets and clean through day |
|                                 |   | <ul> <li>Cleaning play equipment and toys – <ul> <li>a. Toys that are more difficult to clean have been taken out of use temporarily, for example play dough and wooden toys or these are allocated to individual children</li> <li>b. Toys that are put into children's mouths are cleaned between use</li> <li>c. Soft toys and dressing up items are washed after use in a washing machine at 60°C wash cycle for 10 minutes through a wash cycle or taken out of use where this is not possible.</li> </ul> </li> </ul>   |   |   |   |             |            |  |

|              |   | d. Items which need specialist washing or machine washing such as rugs, cushions and mats are not used, unless they are assigned for individual use e.g. young children could be assigned their own carpet tile  6. Resources - Children are allocated their own resources e.g. pencils where possible .  7. Laundry - Early Years setting items such as cot sheets, flannels etc should be treated as single use items and washed according to manufacturer's instructions between uses  8. Books (books are items that are difficult to clean) —  a. Books are issued to pupils on a rotational basis  b. Where teachers handle pupils books they disinfect the surfaces that they are using both before and afterwards as well as undertaking hand hygiene.  c. Used books are set aside for 72 hours after use to reduce microbial load, plastic covers are disinfected after that time.  d. Books and posters checked for visible soiling and disposed of where necessary  9. Wooden desks and wooden work surfaces —  a. The following process is followed:  i. Apply disinfectant and leave for the appropriate contact time applied  ii. Re-apply disinfectant and leave to dry naturally  10. Lunchtime - Trays, tables and chair touch points are disinfected after use  Cleaning equipment after breaks - Outdoor play equipment is cleaned between group use  Tissues and waste from bins provided —  a. Tissues are provided in classrooms and other areas to ensure good respiratory hygiene.  b. Bins are provided in classrooms and other key locations such as dining areas for pupils and staff to dispose of used tissues and are emptied regularly throughout the day  c. Bins and tissues are provided in the same place.  d. Waste bags for tissues are double bagged for disposal.   |   |   |   |             |            | Guidance now says 48 hours.<br>For non plastic             |
|--------------|---|---|---|---|---|-------------|------------|--|
| Handwashing  | Students, Employees, Visitors and Contractors       | 1. Staff are ensuring that handwashing is carried out more frequently than normal (pupils and staff) following the requirements of NHS guidance How to wash your hands in an age appropriate way e.g. observing young pupils, instructing in the class  2. Handwashing frequencies include: on arrival, before and after eating, before and after breaks, after going to the toilet, before leaving and at other required intervals during the day.  3. Hand sanitiser points are provided at key locations around the site including: at all entrance doors to the setting, at the entrance to toilet facilities, at the entrance to dining facilities, at points of high contact such as near non-automatic doors in corridors, lifts and stairs, classrooms, office facilities etc.  4. Consideration has been be given to outside points being provided in a manner that enables removal and securing at the end of the day e.g. on tables/temporary or movable stands etc.  5. Hand sanitiser points have drip trays to deal with spillages and reduce the slip risk where applicable (such as those affixed to walls)  6. Event related prompts are given to pupils by staffafter before when as a more effective means of promoting hand hygiene that fixed time prompts.  7. Staff, pupils (and parents) are advised that handwashing must be carried out when they arrive at home.  8. Hand sanitiser is stored appropriately and safely according to pupil age and individual risks. Where the provision of hand sanitiser points presents a risk of ingestion, this risk is managed through pupil supervision (contact will be made with the WNAT Facilities Manager where this is not possible)  9. Where children are not able to wash their hands due to age or health conditions skin friendly cleaning wipes such as baby wipes are available to use as an alternative.  10. Supervision arrangements are in place to support pupils with handwashing where it is needed.  11. Handwashing is being encouraged rather than using hand sanitizer wherever it is possible  12. Age and developmenta | 2 | 4 | 8 | Headteacher | 14/09/2020 | Posters refreshed through school for toilets and corridors |
| Staff health | Students, Employees,<br>Visitors and<br>Contractors | Staff who are clinically extremely vulnerable  Rates of community transmission of coronavirus (COVID-19) are now reduced to levels below those seen when shielding was introduced. Shielding measures will therefore be paused from 1 August 2020, with the exception of  | 2 | 4 | 8 | Headteacher | 14/09/2020 |  |
|              |   | areas where local lockdown means that shielding will continue. Therefore, we advise that those who are clinically extremely vulnerable can return to school in September 2020 provided their school has implemented the system  |   |   |   |             |            |  |

of controls outlined in this document. In all respects, the clinically extremely vulnerable should now follow the same guidance as the clinically vulnerable population, taking particular care to practise frequent, thorough hand washing, and cleaning of frequently touched areas in their home and/or workspace.

## Definition of 'clinically extremely vulnerable'

Expert doctors in England have identified specific medical conditions that, based on what we know about the virus so far, place some people at greatest risk of severe illness from COVID-19. Disease severity, medical history or treatment levels will also affect who is in this group. Clinically extremely vulnerable people may include:

- 1. solid organ transplant recipients
- 2. people with specific cancers:
  - a. people with cancer who are undergoing active chemotherapy
  - b. people with lung cancer who are undergoing radical radiotherapy
  - c. people with cancers of the blood or bone marrow such as leukaemia, lymphoma or myeloma who are at any stage of treatment
  - d. people having immunotherapy or other continuing antibody treatments for cancer
  - e. people having other targeted cancer treatments that can affect the immune system, such as protein kinase inhibitors or PARP inhibitors
  - f. people who have had bone marrow or stem cell transplants in the last 6 months or who are still taking immunosuppression drugs
- 3. people with severe respiratory conditions including all cystic fibrosis, severe asthma and severe chronic obstructive pulmonary disease (COPD)
- 4. people with rare diseases that significantly increase the risk of infections (such as severe combined immunodeficiency (SCID), homozygous sickle cell)
- 5. people on immunosuppression therapies sufficient to significantly increase risk of infection
- 6. women who are pregnant with significant heart disease, congenital or acquired
- 7. other people who have also been classed as clinically extremely vulnerable, based on clinical judgement and an assessment of their needs. GPs and hospital clinicians have been provided with guidance to support these decisions

More about who is classed as clinically extremely vulnerable on the NHS Digital website.

# Staff who are clinically vulnerable

Clinically vulnerable staff can return to school in September. While in school they should follow the specific measures in this document to minimise the risks of transmission.

This includes taking particular care to observe good hand and respiratory hygiene, minimising contact and maintaining social distancing in line with the provisions set out in section 6, Prevention, of 'The system of controls: protective measures' section of this guidance. This provides that ideally, Minimise contact between individuals and maintain social distancing wherever possible. While the risk of transmission between young children and adults is likely to be low, adults should continue to take care to socially distance from other adults including older children/adolescents.

People who live with those who are clinically extremely vulnerable or clinically vulnerable can attend the workplace.

- 2. **Individual assessment -** All individuals requiring a specific risk assessment have been identified, risk assessments have been undertaken in line with COVID-19.
- 3. Wellbeing Suitable supportive measures have been put in place for staff, for example, how to obtain well-being support
  - a. Where possible, flexible work practices have been put in place to promote a positive work-life balance for all staff.
- 4. **Symptoms** Staff will go home as soon as possible if they develop symptoms
- 5. **COVID Testing** Staff are encouraged to have testing when they or a member of their household develop symptoms, this will reduce the need to self-isolate in the event of a negative test.

Risk assessments completed where appropriate.

| Pregnant persons   | Students, Employees,<br>Visitors and<br>Contractors | Pregnant women are in the 'clinically vulnerable' category, and are generally advised to follow the above advice, which applies to all staff in schools. A risk assessment for pregnant women should be conducted in line with the Management of Health and Safety at Work Regulations 1999 (MHSW).  The Royal College of Obstetrics and Gynaecology (RCOG) has published occupational health advice for employers and pregnant women. This document includes advice for women from 28 weeks gestation or with underlying health conditions who may be at greater risk. WNAT advise schools and pregnant women to follow this   | 2 | 4 | 8 | Headteacher | 14/09/2020 | Pregnant staff work until 3 <sup>rd</sup> trimester with risk assessment in place then review. |
|--|---|---|---|---|---|-------------|------------|--|
| Staff who may<br>otherwise be at<br>increased risk<br>from coronavirus<br>(COVID-19) | Students, Employees,<br>Visitors and<br>Contractors | advice and to continue to monitor for future updates to it  Some people with particular characteristics may be at comparatively increased risk from coronavirus (COVID-19), as set out in the COVID-19: review of disparities in risks and outcomes report, which looked at different factors including age and sex, where people live, deprivation, ethnicity, people's occupation and care home residence. These staff can return to school in September as long as the system of controls set out in this guidance are in place.   | 2 | 4 | 8 | Headteacher | 14/09/2020 |  |
|  |   | People who live with those who have comparatively increased risk from coronavirus (COVID-19) can attend the workplace   |   |   |   |             |            |  |
| Pupil health   | Students, Employees, Visitors and Contractors       | 1. Symptoms  a. Pupils know what the main symptoms are and who to report to if they develop symptoms, no matter how mild  b. Staff check with pupils regarding symptoms on their arrival and remain vigilant for developing symptoms throughout the day  c. Arrangements are in place for the management of pupils who are not able to communicate their symptoms and staff are aware of these arrangements e.g. temperature checks  2. COVID Testing - Parents are encouraged to have testing carried where it is available, where their child or member of their household develops symptoms to reduce the impact of isolation in relation to negative testing.  3. Shielding guidance for children and young people  a. Some pupils no longer require to shield but who generally remain under the care of a specialist health professional may need to discuss their care with their health professional before returning to school (usually at their next planned clinical appointment). You can find more advice from the Royal College of Paediatrics and Child Health at COVID-19 - 'shielding' guidance for children and young people  4. Increased supportive measures for pupils/ psychological needs -  a. Individual Support plans have been reviewed for pupils where required, for example for pupils who are: less able to report symptoms; cannot follow strict hygiene; display behaviours that are challenging to manage in the current context and require close contact tasks. Plans are agreed with staff (parent and pupil where required).  b. Support plans include:  i. Specific cleaning and disinfection requirements such as changing beds and wheelchairs.  ii. Ensuring that staff increase their level of self protection,  iii. Ensure that the pupil washing their hands before and after where able to or use skin friendly hand wipes before and after  iv. Checking that that person does not have symptoms as detailed in the compliance code.  c. Staff are aware of the required infection control measures and understanding that the normal PPE that would have previously been use | 2 | 4 | 8 | Headteacher | 14/09/2020 | Jigsaw PSHE recovery docs to be used   |

|                        |   | f. Behaviour will be managed as it normally would in order to encourage universal hygiene and new safety arrangements.   | , |   |   |             |            |   |
|------------------------|---|--|---|---|---|-------------|------------|---|
| Staff instruction      | Students, Employees,<br>Visitors and<br>Contractors | <ol> <li>All staff instruction -         <ul> <li>a. Staff have been instructed on the nature of COVID-19 and its transmission. They have confirmed they understand the reason for the control measures that are required.</li> <li>b. All staff have confirmed that they are confident in applying the control measures identified in this assessment.</li> <li>c. Staff have received appropriate instructions in relation to the specific measures that have been put in place in the school (as detailed in this assessment)</li> <li>d. Staff have been involved in the practical implementation of this guidance.</li> <li>e. A record is maintained by the setting which details all of the specific areas of instruction and training that have been provided for all members of staff.</li> <li>f. Staff have been advised that there is no need for anything other than normal personal hygiene and washing of clothing following a day in school.</li> <li>g. Staff have been given the opportunity to discuss and resolve any concerns that they have (prior opening and during school activities).</li> <li>h. Staff have received instruction in the actions to take if they or a member of their household develops symptoms, how to arrange for testing and will share test results as soon as they are available.</li> <li>i. Staff confirm they will follow instructions that they are provided as a result of being advised to isolate through tracing arrangements.</li> <li>j. The School has ensured that particular attention has been paid to new/inexperienced staff, trainees and those with additional significant role changes.</li> </ul> </li> </ol>   |   | 4 | 8 | Headteacher | 14/09/2020 | Discuss and agree on 3 <sup>rd</sup> Sept  Gdrive folder filled with instruction and advice |
| PPE and Face coverings | Students, Employees,<br>Visitors and<br>Contractors | <ol> <li>PPE - Arrangements are in place to ensure that PPE guidance is applied in line with the circumstances that are outlined only.</li> <li>Face coverings in education - Pupils have been advised that it is mandatory to wear face coverings on public transport,</li> <li>Arrangements are in place for the safe removal of face coverings on arrival at the setting which has been communicated to pupils and staff including:         <ol> <li>The wearer must not touch the front of their face during use or when removing the face covering b. They must bring a bag or other suitable receptacle with them to place the covering in or dispose of it in a bin.</li> <li>They must perform hand hygiene on arrival at the setting and after removing their face covering.</li> </ol> </li> </ol>   |   |   |   |             | 14/09/2020 |   |
| Increasing ventilation | Students, Employees,<br>Visitors and<br>Contractors | <ol> <li>Using fans –         <ul> <li>a. Where fans are needed in offices, discussion has taken place with staff who use that space to agree terms of use.</li> <li>b. Where fans are needed in classrooms and other educational areas, a decision for their use has been made by the Headteacher in conjunction with staff.</li> </ul> </li> <li>Ventilation         <ul> <li>a. Windows and doors are open to increase ventilation where it is safe and appropriate</li> <li>b. Where installed, the setup of air conditioning systems have been reviewed to maximise the intak of fresh air.</li> <li>c. Where systems serve multiple buildings or are fully recirculating, advice has been sought from HVAC engineers and this has been implemented.</li> <li>d. Rooms and zones which do not have a direct supply of outside air are not used where they are needed for considerable lengths of time (longer than 30 minutes and use of these areas is limited to one person at a time where possible.</li> </ul> </li> <li>Air Conditioning         <ul> <li>a. The risk of air conditioning spreading coronavirus (COVID-19) in the workplace is extremely low as long as there is an adequate supply of fresh air and ventilation.</li> <li>b. You can continue using most types of air conditioning systems as normal. But, if you use a centralised ventilations system that removes and circulates air to different rooms it is recommended that you turn off recirculation and use a fresh air supply.</li> <li>c. You do not need to adjust air conditioning systems that mix some of the extracted air with fresh and return it to the room as this increases the fresh air ventilation rate. Also, you do not need to</li> </ul> </li> </ol> |   |   |   |             | 14/09/2020 |   |

|                                |   |          | <ul> <li>adjust systems in individual rooms or portable units as these operate on 100% recirculation. You should still however maintain a good supply of fresh air ventilation in the room.</li> <li>d. If you're unsure, ask the advice of your heating ventilation and air conditioning (HVAC) engineer or adviser</li> </ul>   |   |   |   |             |            |  |
|--------------------------------|---|----------|---|---|---|---|-------------|------------|--|
| Educational tools              |   | 2.       | Infection control education  a. Age appropriate education is used to encourage pupils to:  i. Become advocates for disease prevention and control at home, in school, and in their community by talking to others about how to prevent the spread.  ii. encourage pupils to follow social distancing, increased hand washing and information about developing symptoms of viruses  The following resources are used where appropriate:  a. e-Bug resources to teach pupils about hygiene  b. the Educational Settings poster  c. the Coronavirus Toolkit for Professionals which contains campaign materials. | 2 | 4 | 8 | Headteacher | 14/09/2020 |  |
| Review of existing assessments | Students, Employees,<br>Visitors and<br>Contractors | 1.<br>2. | The setting regularly reviews their arrangements in line with compliance code updates.  Review arrangements ensure that the control measures are effective and working as planned.  | 2 | 4 | 8 | Headteacher | 14/09/2020 |  |
