Homework Challenge – SpringTerm 1 2018-2019

Our homework challenge goes from strength to strength. I have seen some fantastic efforts from children, celebrated at the end of every half term with parents and carers. This type of homework really does motivate children and enhances their learning. I would like children to select at least one of the challenges below, however children can do as many as they wish. This will continue to be run alongside the regular homework that is set.

Our topic this term is **'What's Happening Now?'** and the following are all ideas that link to both topic and science.

<p>Be artistic – compile a collage on the subject of natural disasters.</p> 	 <p>Find out about the Thames Flood Barrier and explain why you think it is important.</p>	<p>Wind and water can be used to provide energy. What can you find out about alternative energy?</p> 
<p>Make a model of the human heart.</p> 	 <p>Make and use your own weather station and keep a daily record of the weather.</p>	<p>Produce a fact file about the human circulatory system.</p> 

The challenge work is due by **Wednesday 13th February** and on **Friday 15th February at 9:15am** each child will get to present their work and for it to be celebrated. Parents are invited to this session too!

It is completely up to the children to decide how they want to record it. They could use photos, diagrams, drawings or something else! All I ask is that everyone has a go.

I thank you for your continued support.

Mrs Robinson
