

Homework

- Children will receive a piece of maths and English homework on a Friday that we expect to be returned by the following Monday.
- Children will have a set of spellings to learn and these will also be tested on the following Monday.

Remember the homework challenges that are ongoing throughout the term.

PE

Please ensure your child has their PE kit in school every Monday. They can bring it home to be washed on a Friday but must make sure they bring it back with them after the weekend. Our PE day this term will usually be on a **Wednesday**.

We are always happy to see you to discuss your child. However, we do ask that unless you have some urgent information for the day, you try to see us after school, when we will have more time to talk to you.

Class Information

Year 5/6

Class 3

Autumn Term 1 2019

We hope you find the following information helpful in supporting your child this term. You will find a brief overview of the curriculum content for some subject areas along with a more detailed 'knowledge organiser' for other subjects. This information is designed to give you a flavour of what the children in year 5/6 will be learning this term as well as some more detailed information on the knowledge we expect children to know at the end of this term.

Many thanks for your continued support.
Mrs Robinson

Year 5/6: Autumn Term 1

English

In English lessons, the children will be learning how to write a meeting tale, We will be looking at two text, Little Vixen Street and The Arrival

Maths

Year 6

In Maths lessons, the children will be looking at number and place value and the four operations. (Addition, subtraction, multiplication and division)

Year 5

In Maths lessons, the children will be looking at number and place value and addition and subtraction.

Science

In Science lessons, children will be learning about atoms and their basic structure. We will explore the work of John Dalton and the elements and Mendeleev and the Periodic Table.

Geography

In Geography lessons, the children will learn that lines of longitude and latitude divide the world into sections and the lines of latitude tell us about the climate of regions, The will also learn that the world is divided into 24 hourly time zones. We will explore the fact that map projection is a method that involves representing our round Earth on a flat piece of paper. Finally, the idea that maps can help us to understand data about places, people and the environment.

History

In History lessons, we will look at the causes of World War One and understand that it was fought on land, at sea and in the air.

They will also find out what life was like for soldiers on the Western Front and what it was like on the Home Front. Finally, we will look at the consequences of the First World War.

Computing

In Computing lessons, children will be using the Purple Mash programme to explore online safety and learning how to use and create spreadsheets..

Art

Prints and Print Making

In Art lessons, the children will understand that printmaking is an indirect art form.

They will be made aware of the benefits of print making. The children will also use various print making techniques and recognise the products of printmaking.

RE

In RE lessons with Mrs Mead, the children will be studying the stories of Hinduism.
