

Walpole Cross Keys Primary School

Weekly Newsletter - 12th May 2023

This week our **year 6** pupils have completed their SATs, we are really proud of the way you all approached these assessments. Thank you to our PTA who have funded their **breakfast club** all week and their **pizza lunch** today.

As part of **Class 1's life cycle** topic they have had some exciting new additions to their classroom this week. We are looking forward to seeing all the **chicks** hatch and grow, caterpillars change into chrysalides and then **butterflies** and our tadpoles emerge into **frogs**.

SAFEGUARDING Could we kindly remind all parents/carers to ensure your child is supervised during pick up and drop off times, in particular they must run around within the entrance and car park area. Teachers are not on duty until 8:35am. Thank you

As always, we would like to ensure that your **experience** at Walpole Cross Keys Primary is a **positive** one. If you have any concerns, in the first instance, please telephone (01553 828680), email the school office or speak with the class teacher.

Best Wishes
Ms J. Borley,
Executive Head Teacher

What Parents & Carers Need to Know about

TELEGRAM

AGE RESTRICTION
17+

WHAT ARE THE RISKS?

LACK OF AGE RESTRICTION

Telegram has a 16+ age restriction on using the service, while someone is required to be over 17 to actually download the app. Once that's accomplished, however, there's no need to provide further identification. That means there's no guarantee that under 17s aren't using the app – and no way to confidently verify that any other user actually is who they say they are.

POSSIBLE CYBERBULLYING

If your child uses Telegram, they could well be in a group with friends and peers on the app. These groups are managed by admins who can remove the option to post replies – possibly leading to instances of cyberbullying in which the victim has no ability to respond. Messages can be forwarded from groups, too, which potentially opens up images and text being seen by people they weren't intended for.

UNMODERATED CONTENT

Because Telegram relies on users' self-moderation, it can sporadically become a hotbed for illegal or inappropriate content. In the past, the circulation of this material has led to its temporary removal from the App Store. In fairness, the same can be said of several messaging platforms, but Telegram's features (Secret Chats, for instance) certainly present more issues than the likes of WhatsApp.

17+

PREMIUM COSTS

Telegram is free to use, but it also offers a premium membership (£4.99 per month or £35.99 a year) which increases download speeds, adds translation features, and increases channel and account limits. If your child has access to your Apple ID or Google Play details, they may be able to sign up for the premium package without your knowledge.

UNAUTHORISED ACCESS

One of Telegram's major selling points is that it's accessible across multiple platforms. Once the app's been downloaded, users can log in from a phone, tablet or computer. This multi-device availability means increased opportunities for someone else to gain unauthorised access (if your child leaves a computer or tablet at school logged into their Telegram account, for instance).

SECRET CHATS

Telegram offers a feature called Secret Chats, which allows for messages which self-delete after a specified period of time. There are instances where this can be useful (journalists often use Telegram to protect their sources, for example), but for young people it can make it extremely difficult to prove that someone has been abusive or inappropriate towards them on the app.

Advice for Parents & Carers

PRIVACY CONTROLS

If your child wants to use Telegram, we'd strongly suggest using the app's built-in privacy settings to restrict who can see when they were last online, their profile photo, and their phone number. This can be set to 'everybody', 'my contacts' or 'nobody'; we'd recommend either the second or third options, depending on how locked down you want the platform to be.

DISCUSS SECURITY

It's important that your child understands the merits of strong passwords and logging out of devices when they're finished – and the benefits of protecting their personal data in general. This could range from relaxed chats and simple tips like "don't send your bank details" to how to set up passcodes for Telegram so your child's chats stay secure when they step away from their screen.

REPORT UNSAFE CONTENT

If your child receives private messages which include content that could be considered illegal, unsafe or upsetting, they can of course block the account responsible within the app itself. Be aware, however, that Telegram won't necessarily take any further action unless this offensive content involved a user-created channel, bot or sticker.

USE THE BLOCK FUNCTION

Users can block spam, abusive, or imposter accounts within the app. Blocking stops that account from messaging your child, or viewing their profile and activity. If the user in question is one of your child's peers or friendship circle, it may be worth bringing it to the attention of their school. Also bear in mind that your child can also voluntarily leave a Telegram group at any point if they wish.

PROTECT PAYMENT METHODS

Apple and Google's storefronts offer family sharing options, but it's also worth double-checking your settings to ensure that a password or two-factor authentication option is set up to prevent any unexpected purchases. If your child does pay for a premium Telegram subscription without your consent, Apple and Google have been known to issue refunds in some cases.
