Weekly Newsletter – 14th March 2025

Hello everyone,

On Friday 21st March will mark the 40th anniversary of Comic Relief - starting way back in 1985! To mark the occasion and to raise funds for the charity we will be wearing 80s themed clothes (anything bright or 80's is fine), having a rubbish raffle (some good prizes and lots of terrible/funny ones), as well as a few other activities too (guess the sweets in the jar etc). Children can have a go at all of the activities for free - you can donate by looking under the 'Shop' tab of your MCAS account. Thank you for your support.

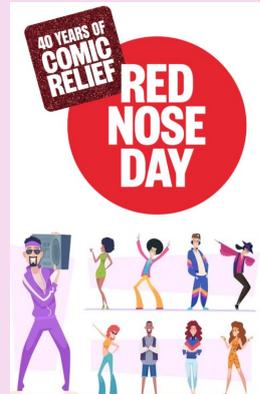

Please ensure that your child comes into school with appropriate clothing i.e., coat as it's still on the chilly side!

We are still seeking members for our PTA. If you are interested, please speak to Mr Overton as soon as possible. Thank you for all your support.

As always, we would like to ensure that your **experience** at Walpole Cross Keys Primary is a **positive** one. If you have any concerns, in the first instance please telephone, email the school office or speak with the class teacher.

Best Wishes

Ms J. Borley (Executive Head Teacher)

What Parents & Educators Need to Know about ROBLOX

AGE RESTRICTION
PEGI
7

Roblox is one of the most popular video games among children. In 2020, the game's developers claimed that more than half of the USA's children had played it. As a 'sandbox' title, the game lets players create their own gaming experiences with Roblox Studio to build custom levels, which can then be shared online.

WHAT ARE THE RISKS?

ONLINE PLAY RISKS

Because Roblox connects random players across the world, it can put younger players into an environment with anonymous users who could use the platform for nefarious reasons. For example, some role-play games are used for online dates and mature role play, which could expose youngsters to inappropriate messages in the public chat box.

ANONYMOUS PLAYERS

The anonymity of users can leave players vulnerable to bullying, harassment, and predatory behaviour. Without the right parental controls or monitoring, users can connect with each other via personal messages or friend requests, and it is very difficult to know who's behind a username in this vast online world.

MATURE CONTENT

Content is difficult to moderate throughout Roblox, due to the number of games available. This is particularly notable on smaller games and experiences, but in summary, some of the games and experiences offered on the platform contain age-inappropriate content that could easily be seen by young players.

RISK OF ADDICTION

Roblox games can feature rewarding or satisfying mechanics that keep players coming back – or persuade them to stay logged-in for much longer. Like most games, they focus on interactivity, with constant rewards via in-game unlocks and currencies, which can sometimes lead to an addictive need to remain online for long periods of time.

IN-GAME SPENDING

The majority of games within Roblox have extensive monetisation options, usually through season passes or microtransactions. Purchases can range in value from a few pennies up to much larger sums of money. While some games offer a lot of content via purchases, others can offer very little for real world money, causing younger players to end up out of pocket.

SCAMS

Many of the games on Roblox feature collectible items, pets, or characters. These objects, while digital, are worth a lot of real money on certain online markets. Scammers will attempt to trade with younger users in the hopes of getting rare items that can be sold for real money, manipulating the child into handing them over, usually via misleading information.

Advice for Parents & Educators

MONITOR THE CONTENT

While Roblox does implement plenty of moderation tools and parental controls, it's up to parents and guardians to monitor the types of games a child or impressionable player is experiencing. If a youngster wants to play Roblox, be sure to check out which specific games they want to play within it, and get a good idea of their content.

PLAY TOGETHER

Consider playing Roblox with the children in your care. There are few more effective ways to see how monetisation works, gauge whether the game could lead to addictive behaviours, or even witness how interaction between players works, than sitting down and trying the game for yourself. This should help you figure out whether it's suitable for particular children.

TAKE ADVANTAGE OF TOOLS

Use the parental controls within the game itself and teach youngsters how to report and block other players. Knowing the powers within their reach will make Roblox a safer, happier experience. You can set age ranges for who's allowed to contact you, close public chat boxes, block spending, and even make your Roblox profile completely private. All these options are helpful in cutting off bad actors from engaging with children.

TEACH ONLINE BEHAVIOURS

Have an open conversation about the risks of online play and how to spend money wisely. By being honest and giving tips on how a younger user can protect themselves, you can empower them to not only take care of themselves, but others too. Any user can be reported to Roblox moderators by other players for behaving inappropriately. With this knowledge, younger players can be aware of what to look for and help prevent it.

SAFEGUARDING

Safeguarding children is the action we take to promote the welfare of children and protect them from harm. Safeguarding is everyone's responsibility. Every single person who comes into contact with children and families has a role to play. At our school we have a designated safeguarding team who are trained professionals in safeguarding, however all our staff are trained in safeguarding if you want to discuss any concerns with them.
